ASA24-2018 Participant Quick Start Guide for 24-Hour Recall

Updated January 22, 2019

You have been asked to report everything you ate or drank over the last 24-hours by using an online tool called ASA24. ASA24 stands for the “Automated Self-Administered 24-Hour Dietary Assessment Tool.”

Depending on the instructions you receive, you will either enter detailed information about all foods, drinks, and supplements you ate or drank from midnight to midnight yesterday, or for the past 24 hours starting from the time you log in. Supplements include vitamins, minerals, herbals, and other dietary supplements.

This guide describes the steps you need to follow to complete your 24-hour recall, along with tips and screen shots to help you if you have questions. You can always use the Help button at the bottom of the screen if you can’t find the answers to your questions here.

A few tips:

- It is important that you report all the foods, drinks, and dietary supplements you ate or drank.
- Allow about 30 minutes to complete your recall.
- After 30 minutes of inactivity, you will be automatically logged out of ASA24. But, your information will be saved. Depending on the options selected by the person who asked you to complete a recall, you may or may not be able to log back in to finish.
- If you can’t find the exact item or brand name of what you ate or drank, select the closest match you can find.
- We know that what you eat from one day to the next can be quite different. Please enter only the foods, drinks, and dietary supplements you actually ate or drank, even if they do not reflect your usual diet.
How the ASA24 system flows for 24-Hour Recalls:

1. **Report a meal or snack**

2. **Find items and add recipes**
   - Do not report additions yet (such as butter on bread).
   - You'll be asked for details in Step 3.

3. **Add details**
   - Food preparation (such as fried)
   - Portions
   - Additions (such as milk in cereal)
   - Recipe ingredients

4. **Review**
   Return to Step 1 to report any missing meals or snacks.

5. **Forget anything?**
   Answer questions about commonly forgotten items.

6. **Final step**
   Answer a final question about usual intake and you're DONE!

**Having trouble finding an item?**
- Don't include the brand name in your search.
- Search a more general term.
- Select the closest match possible.

**Still can't find it? Select “I can't find what I am looking for” and type item in.**

**Repeat Steps 1 and 2 until all of your meals and snacks are entered.**
Detailed steps in completing ASA24:

**Step 1:** Report a meal or snack and provide information about it (such as time and location).
- If you only had a drink, choose **Just a drink**.
- If you only had a dietary supplement, choose **Just a supplement**.

**Step 2:** Search for and select foods, drinks, and dietary supplements you had during the meal or snack.
- Select **Report a Meal or Snack** for each of your other meals and snacks, repeating Steps 1 and 2 until you have reported all your meals and snacks. After you enter the name of an item in the search box, you can select from items in the results or add a recipe. For recipes, first, you will just provide a name for the recipe. Later, in **Step 3**, you will list all the recipe ingredients.
- You will be reminded to check the time gaps between your reported meals and snacks to be sure you did not forget any other meals or snacks. If you did, return to **Step 1** to add the forgotten meal or snack and then to **Step 2** to add the items you ate or drank.

**Step 3:** Answer detailed questions about the foods and drinks you had and any recipes you reported. This will include questions about how they were prepared, the amount you ate or drank, and anything added (such as butter on potatoes, or milk on cereal). You will also list the ingredients for any recipes you added. For dietary supplements, you will be asked about dosage.

**Step 4:** Review what you reported to be sure all foods, drinks, and dietary supplements have been included and that the detailed questions were answered correctly. You can make changes as necessary.

**Step 5:** Answer questions about items that tend to be forgotten (such as water or dietary supplements).

**Step 6:** Answer one final question about whether what you ate and drank was less than, more than, or about usual for you.

**YOU ARE DONE!**
Tips and screen shots for steps 1, 2, 3, and 5:

Step 1. Report a meal or snack

First, you will be prompted to report a meal or snack and to provide information about it.

---

Tip: Reporting vitamins, minerals, herbals, or other dietary supplements

Do I report dietary supplements as part of a meal or a snack, or some other way?

In the Select a meal or snack drop-down menu, choose the meal or snack at which you took your dietary supplement. If you did not take the dietary supplement as part of a meal or snack, choose Just a supplement to report vitamins, minerals, herbals or other supplements.
Step 2. Find foods, drinks, and dietary supplements

Next, search for the foods, drinks, and dietary supplements that you had during your meal or snack. Your search results can be filtered by food category to narrow the results. Refer to the next page for search tips. You can also add a recipe if you like.

Type your food, drink, or dietary supplement and select Search.

Filter your search results or enter a recipe.

Select the item to add it to your meal or snack.

When all items for a meal have been added and appear here, select Finish with This Meal.
Tips: Searching for an item

How specific should I be when searching for foods, drinks, and dietary supplements?

If you are too specific when searching for a food, you may not be able to find it. If you cannot find what you are looking for, try a less detailed search term. For example, if you want to report “barbequed chicken sandwich,” try searching for “chicken sandwich.”

What if I want to search for a specific brand name (such as Lay’s Potato Chips)?

You can try to search for a food, drink, or dietary supplement using the brand name, but many brand names are not included in ASA24. If you do not get the desired results, search using a more general description (such as potato chips vs. Lay’s Potato Chips) and select the closest match.

Is there a way to narrow my search results?

Select among categories in the left panel to narrow the search results.

How do I enter foods with many ingredients?

When reporting a food that contains more than one item, such as a sandwich, salad, or ice cream sundae, search for “turkey (or ham, roast beef, etc.) sandwich,” “green salad,” or “ice cream sundae.” Later, you will be asked about the items that made up that food. You do not need to report each ingredient separately. For example, if you report a turkey sandwich, you will be asked in Step 3 to report the turkey, along with other items in your sandwich (such as cheese, lettuce).

What if I cannot find an item or even a close match?

If none of the choices shown in the Results box are close to the item you had, you can either choose Add a recipe on the search results page or you can choose I can’t find what I’m looking for at the bottom of the Results box to report your item.
Step 3. Add details
You will be asked for details about the type of food, drink, or dietary supplement you had, how much you had, and any items (such as spreads, dressings, or cheeses) you may have added.

**Food type:**

![Image of food type selection](image)

**How much you ate or drank:**

![Image of how much food was eaten](image)

**Additions:**

If you added anything to your food or drink that you did not already report, use the search box to find and report the item.

Step 5. Answer questions about often forgotten foods
Finally, before you complete your dietary recall, you will be asked about items that people often forget to report. Answer “yes” or “no” to each question. If you answer “yes” to any question, you will be guided back to the Find Foods & Drinks page to report the forgotten items in a new or existing meal.

Once you are done with the Forgotten Foods page, you’ll be reminded one more time to report everything you ate and drank and then asked about whether the amount of food and drink you had was similar to what you usually eat. Then, you are done.

Thank you for participating!

Getting help
There are three different buttons in ASA24 that offer additional help or guide you back to the home page: The Help button, the yellow Question Mark button, and orange Home button.

Select the Help button in the bottom left hand corner of the page to access the Help Center, which includes frequently asked questions.

Select the yellow Question Mark button to get help specific to a question you are answering.

Select this Home button at any time to return to the home screen where you can view all the foods, drinks, and supplements you already reported.

Contact the person who asked you to complete ASA24 if you have any further questions.
