

Colorectal Cancer Pooling Project (C2P2): Progress Report for March 05, 2024

Definitions:

Project Group - defined as an umbrella project group with multiple individual sub- or related Cohort Consortium approved projects.

Project - defined as a single stand-alone project that is not part of an umbrella project group (as defined above). A progress report is requested from the project.

Early Career Investigators - defined as post-doctoral fellows and investigators generally within 10 years of terminal degree (e.g. Ph.D., M.D.).

* Projects that are unresponsive to progress report requests after 3 years are subject to submitting a new proposal. *

Name of Project Group: Colorectal Cancer Pooling Project (C2P2)

Date Project Group was Established: Feb. 28, 2019, 4:56 a.m.

Lead Investigator: Peter Campbell

Alternate Contact: Marc Gunter

1. Current Status of the Project Group

Is the project considered:

Active (ongoing recruitment, data collection, data analysis, manuscript preparation)

Please list all cohorts participating in the project.

Agricultural Health Study, Breakthrough Generations Study, Breast Cancer Surveillance Consortium, California Teachers Study (CTS), CanPath - Alberta's Tomorrow Project, CanPath - Atlantic Partnership for Tomorrow's Health (PATH), CanPath - British Columbia Generations Project, CanPath - CARTaGENE, CanPath - Ontario Health Study, Canadian Study of Diet, Lifestyle, and Health, Cancer Prevention Studies (CPS I, CPS II, CPS III, & CPS II Nutrition Cohort), European Prospective Investigation into Cancer and Nutrition (EPIC), Golestan Cohort Study (GCS), Janus Serum Bank, Japan Public Health Center-Based Prospective Study (JPHC), Melbourne Collaborative Cohort Study, NIH-AARP Diet and Health Study, NYU Women's Health Study,

Prostate, Lung, Colorectal and Ovarian (PLCO) Cancer Screening Trial, RERF Life Span Study, Adult Health Study, and F1 Cohorts (Hiroshima and Nagasaki), Shanghai Men's Health Study (SMHS), Shanghai Women's Health Study (SWHS), Southern Community Cohort Study (SCCS), Swedish National March Cohort, UK Biobank (UKB), Women's Health Initiative (WHI)

Has funding been obtained for the project?

Funding application submitted but not awarded

Please add any additional comments about funding here.

We have submitted 3 R01s that were not funded. we currently have 1 R01 under review. And we just received excellent reviews from a smaller ACS RFA that looks promising, albeit with limited funding.

Have the specific aims in your original project proposal changed or have additional analyses been approved by the project?

Yes

If yes, then please specify.

We have added risk prediction.

2. Accomplishments and Challenges

On a scale of 1 to 5, are you satisfied with your project's progress at this point?

1 = Very Unsatisfied, 5 = Very Satisfied

3 (Somewhat Satisfied)

Please summarize the noteworthy accomplishments or successes of your project since the last progress report.

We continue to submit strong grants but the funding environment is challenging, especially for secondary data analyses.

Please summarize any challenges or delays your project has faced since the last progress report.

Need funding. Nothing else matters in moving this ahead.

Please detail any lessons learned: what's working, what's not working, what could be improved or done differently?
