

Application for Consortium Membership

Thank you for your interest in joining COMETS. Cohorts must meet the following criteria:

- Prospective cohort, 100+ participants with blood metabolomics data
- Identified metabolite data
- Follow-up for disease, including cancer and non-cancer outcomes
- Mass-spectrometry platform, preferred; however, NMR data are eligible

Please complete the form below and submit to Ella Temprosa (ella@bsc.gwu.edu) or Krista Zanetti (zanettik@mail.nih.gov) to apply for membership. Your submitted application will be reviewed at the next Steering committee call.

Cohort Information	
Cohort short name	
Cohort full name	
Reference or PMID for design paper	
Study Design	
Year of baseline exam	
Years of follow-up	
Number of subjects in cohort	
Outcomes collected during follow-up	<input type="checkbox"/> Diabetes <input type="checkbox"/> Cancer <input type="checkbox"/> Cardiovascular disease <input type="checkbox"/> Renal disease <input type="checkbox"/> Mortality <input type="checkbox"/> Other: _____
Contact information: Name, Email, Phone, Address	
Metabolomic study information	
Reference or PMID for published metabolomic studies	
Number of subjects with metabolite measured	
Mean age (range) at time of measurement	
Time points measured	
Analysis platform	
Classification and number of measured metabolites	(check all that apply) <input type="checkbox"/> Targeted (n = ___) <input type="checkbox"/> Untargeted (n = ___) <input type="checkbox"/> Identified (n = ___) <input type="checkbox"/> Unidentified (n = ___)
Fasting status of specimen	
Year analyzed	
Type of specimen used (Blood, urine, etc.)	<input type="checkbox"/> Blood <input type="checkbox"/> Urine <input type="checkbox"/> Other
If blood, collection type	<input type="checkbox"/> EDTA <input type="checkbox"/> Serum <input type="checkbox"/> Heparin plasma <input type="checkbox"/> Citrated plasma
